Cole-Parmer® Programmable Vacuum Ovens

Easily set up 8 programs for parameters such as temperature, time, and fan speed. Our ovens are designed with independent vacuum interface and vents, an air inlet for easy access to inert gases such as nitrogen, and a solenoid valve that controls vacuum degree and vacuum pump. Multiple safety features include temperature deviation alarm, overtemperature set point alarm, overcurrent protection, and auto-start after power loss/return.

Each oven includes stainless steel shelves with mounting brackets, connecting vacuum pipes, and wrench. Additional shelves can be ordered separately (see table).
